Manual Installation

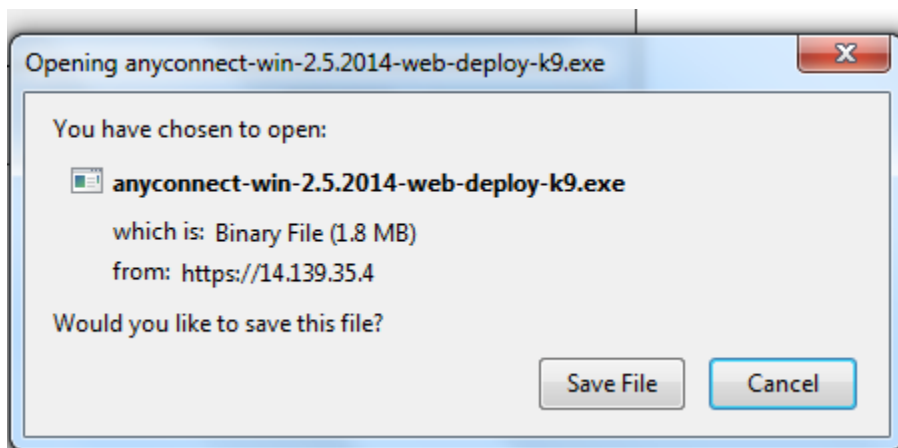

Web-based installation was unsuccessful. If you wish to install the Cisco AnyConnect VPN Client, you may download an installer package.

Install using the link below:

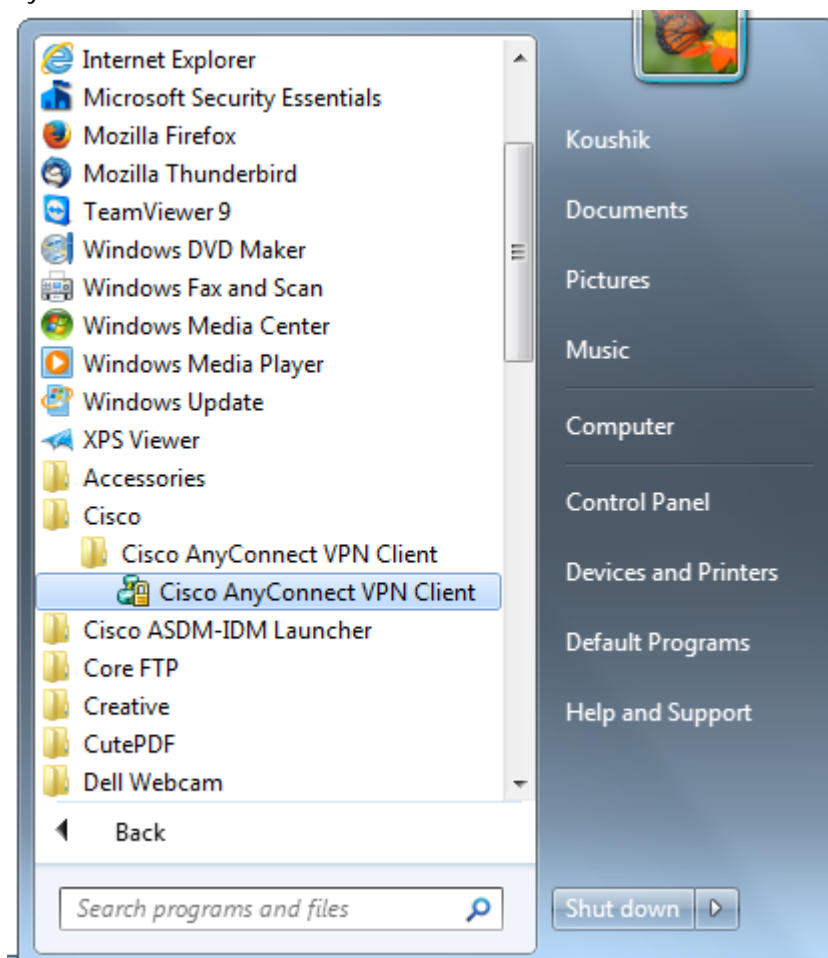

[Windows 7/Vista/64/XP](#)

Alternatively, [retrv](#) the automatic installation.

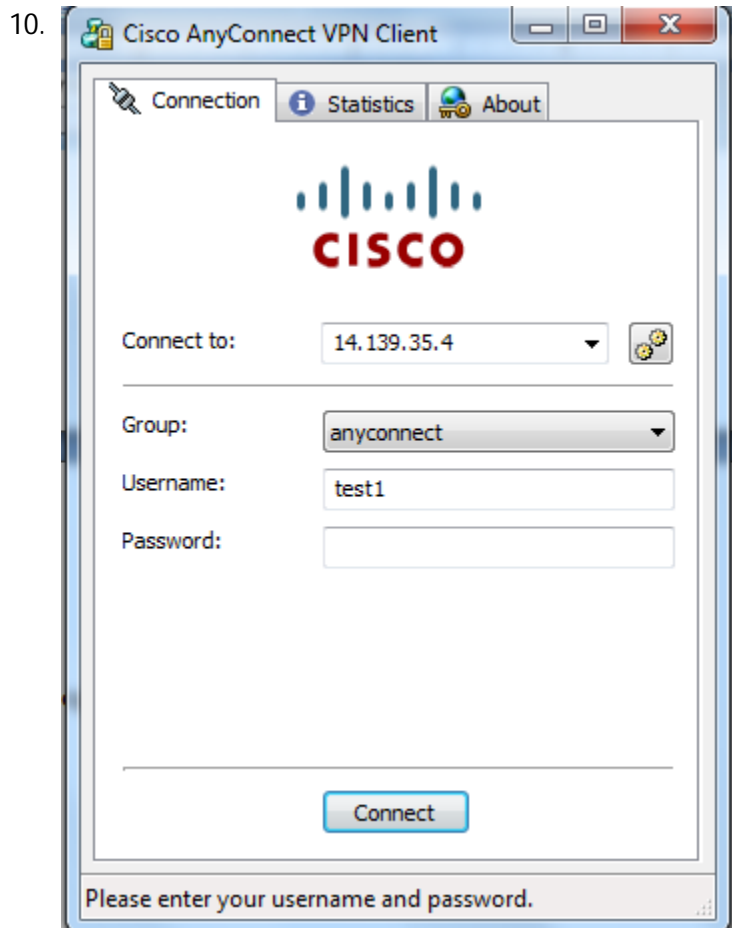

5. Download the VPN client. Either you can download the VPN Client from here or from our Computer Centre download page: <http://cc.iiti.ac.in/downloads.html> (Point No.:03) as per your OS.

6. Install the client.
7. This is only one time process.
8. After the client is successfully installed you can find the client program in program menu of your system.

9. Open the Client program (Cisco AnyConnect VPN Client).

11. In the connection tab make entries as under:

- a. Connect to: 14.139.35.4
- b. Group: IITI
- c. Username: as provided to you
- d. Password: as provided to you

12. Click **Connect**.

13. After the connection is successfully established, you will become part of IIT Indore Intranet.

14. Make proxy setting in your browser (you can follow the link <http://cc.iiti.ac.in/configuration.html> for proxy setting)

15. Now will be able to browse through IIT Indore network and able to access all subscribed journals.

16. How to Disconnect:

- a. Please click the "Disconnect" button in connection tab of VPN client window for closing the VPN connection.
- b. Don't forget to remove your Proxy Settings for accessing Internet
